Checklist – Consolidated State Annual Action Plan of PUNJAB for all ULBs under AMRUT

| Sr. No. | Points of Consideration | Yes/No | Details |
|---------|--|--------|---|
| 1. | Have all the Cities prepared SLIP as per the suggested approach? | Yes | First priority has been given to increase universal coverage through house connections of water supply and sewerage. Development of green spaces and parks with special provision for child friendly components are also included. Keeping in view the mission statement and guidelines total expenditure on green spaces/parks has been kept less than 2.5% of the State Annual Action Plan. Every City has identified one park for the current SAAP. |
| 3. | Has the SAAP prioritized proposed investment across cities? Is the indicator wise | Yes | The SAAP has prioritized the ULBs wise allocation based on service level gap analysis for universal coverage of water supply & sewerage system. Indicator wise improvement in has |
| J. | summary of improvements proposed (both investments and management improvements) by State in place? | Yes | been considered as per the requirement. |
| 4. | Have all the cities under Mission identified/done baseline assessments of | Yes | All AMRUT cities have done the baseline assessments of service coverage indicators. |

| | service coverage | | |
|-----|----------------------------------|-----|--|
| | indicators? | | |
| 5. | Are SAAPs addressing an | | SAAP has been prepared to meet |
| | approach towards meeting | | the service level benchmark. |
| | Service Level Benchmarks | Yes | |
| | agreed by Ministry for each | | |
| | Sector? | | |
| 6. | Is the investment proposed | | The investment proposed is |
| | commensurate to the level | | commensurate to the level of |
| | of improvement envisaged | Yes | improvement envisaged in the |
| | in the indicator? | | indicator. |
| 7. | Are State Share and ULB | | ULBs shall contribute 20% of the |
| | share in line with proposed | Yes | project cost and balance of the state |
| | Mission approach? | 162 | finance shall be contributed by the |
| | | | state government. |
| 8. | Is there a need for | | Efforts are being made to mobilize |
| | additional resources and | | resources through 14 th Finance |
| | have state considered | | Commission, State Finance |
| | raising additional | | Commission, HUDCO, JICA, PPP |
| | resources (State | Yes | model etc. |
| | programs, aided projects, | 100 | |
| | additional devolution to | | |
| | cities, 14 th Finance | | |
| | Commission, external | | |
| | sources)? | | |
| 9. | Does State Annual Action | | SAAP has been prepared |
| | Plan verify that the cities | | considering O & M charges to be |
| | have undertaken financial | Yes | realised by collecting user charges, |
| | projections to identify | 103 | Cost of O & M to be borne by ULBs. |
| | revenue requirements for | | Additional fund requirement shall be |
| | O & M and repayments? | | worked out while preparing the DPR. |
| 10. | Has the State Annual | | SAPP has been prepared |
| | Action Plan considered the | Yes | considering financial positions of |
| | resource mobilization | | ULBs and if required funds shall be |

| | capacity of each ULB to | | raised through financial institutions. |
|-----|-----------------------------|-----|---|
| | ensure that ULB share can | | |
| | be mobilized? | | |
| 11. | Has the process of | | LOI has been issued for appointment |
| | establishment of PDMC | | of PDMC.M/S Shah Technical |
| | been initiated? | Yes | Consultant Pvt.Lt.Mumbai, has been |
| | | | selected as PDMC for 16 towns of |
| | | | Punjab. |
| 12. | Has a roadmap been | | The resource potential of each ULB |
| | prepared to realize the | | has been considered while preparing |
| | resource potential of the | Yes | the SAAP. 14 th Finance Commission |
| | ULB? | 163 | Grants and other financial sources |

(State Mission Director)

CHAPTER - 1

Project Background

1.0 AMRUT MISSION

1.1 Launching of Mission

Ministry of Urban Development (MoUD) Government of India launched Atal Mission for Rejuvenation and Urban Transformation (AMRUT) on 25th June 2015 for next 5 years (March 2020) to augment infrastructure for providing urban basic services like water supply, sewerage, septage management, urban transport etc. to household, aiming to improve the quality of life for all, especially the poor and the disadvantaged.

1.2 Urbanization

The urbanization in India has increased from 27.7% in 2001 to 31.1% in 2011 (**Urbanization in Punjab is 37.48%**). It is estimated that urbanization in the country will reach a level of 50% by the year 2050.

The number of metropolitan cities (+1 million) has risen from 35 to 53 during 2001- 2011 and account for 42.6 percent of the total urban population. The population growth and infrastructure are not growing in direct proportion. Rapidly growing economy and increased industrial activities, huge population growth are calling the attention of planners for demand of better quality and coverage of water and sanitation services, sewerage and drainage systems, solid-waste management, transport, roads, and power supply etc.

1.3 Purpose of Mission

The purpose of the Mission is to ensure that every household has access to a tap water with assured supply and is connected with sewerage line. Beyond household level services, its aim is to improve urban environment to add values in the city and its citizen by adopting multi pronged strategy. Prominent among them are promoting non-motorized public transport, developing open and green space and promoting cities to adapt innovative

strategy, practices and technologies.

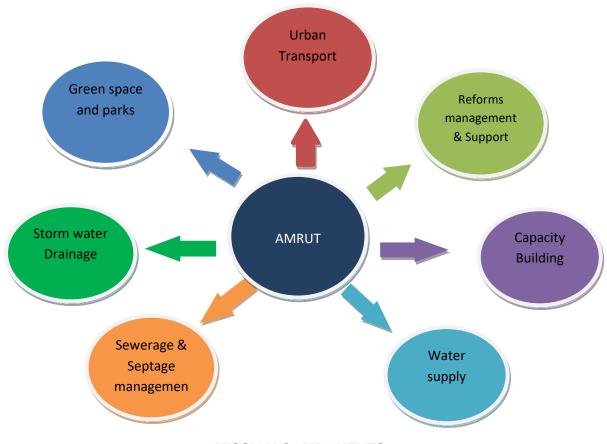

1.4 Thrust areas under Mission

The Mission will focus on the following Thrust Areas:

- Water supply
- Sewerage facilities and septage management,
- Storm water drains to reduce flooding,
- Pedestrian, non-motorized and public transport facilities, parking spaces,
- Enhancing amenity value of cities by creating and upgrading green spaces, parks and recreation centers, especially for children.

1.5 Mission Components

The components of Mission consist of water supply, sewerage and septage management, storm water drainage, urban transport and development of green spaces parks, capacity Building and reform implementation.

1.6 Coverage under Mission

Five hundred cities are to be taken up under the Mission.

- All Cities and Towns with a population of over one lakh with notified Municipalities, including Cantonment Boards (Civilian areas),
- All Capital Cities/Towns of States/UTs, not covered above,
- All Cities /Towns classified as Heritage Cities by MoUD under the HRIDAY Scheme.
- Thirteen Cities and Towns on the stem of the main rivers with a population above 75,000 and less than 1 lakh, and
- > Ten Cities from hill states, islands and tourist destination (not more than one from each State).

(Sixteen towns have been selected for AMRUT in Punjab)

1.7 Program Management Structure

Ministry has made a departure from its earlier practice of sanctioning projects. Under AMRUT, the ministry will accord approval to the State Annual Action Plan **(SAAP)** prepared by state for improvement of services in the towns covered by AMRUT.

For implementation of AMRUT, National, State and City level structure has been proposed.

1.7.1 National Level

An Apex Committee (AC) chaired by the Secretary, MoUD, GoI and comprising representatives of related Ministries and organisations will supervise the Mission.

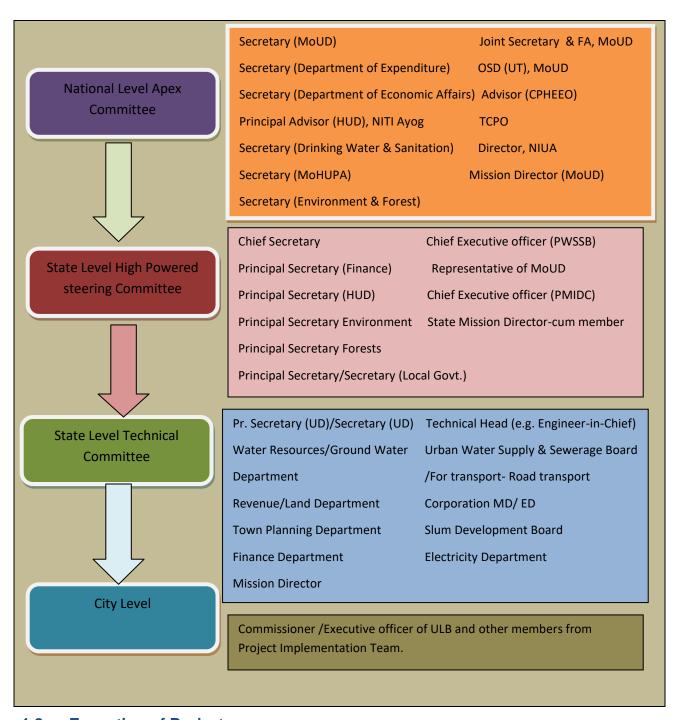

1.7.2 State Level

A State level High Powered Steering Committee (SHPSC) chaired by the State Chief Secretary, shall steer the Mission Programme in its entirety. The SHPSC shall constitute a State Level Technical Committee (SLTC) with representatives from the concerned Departments/Organisations, which will carry out the technical and financial appraisal of the Detailed Project Reports (DPRs), to be approved by SHPSC.

1.7.3 City Level

At the City level Urban Local Body (ULB) will be responsible for implementation for the Mission. The management structure and its functions at various levels are shown in the diagram below:-

1.8 Execution of Projects

Projects will be executed either by ULB or specialised parastatal agency of State Government. The flow chart given below gives the details of the complete process of planning, approval and implementation of AMRUT.

Execution

Apex Committee allocates annual budget to States

The SHPSC gets city level Service Level
Improvements Plans(SLIPs) prepared in order
to provide water supply and sewerage
connections to all in the city

The SLIPs are aggregated to form the State Annual Action Plans (SAAP)

The Apex Committee appraises and approves the SAAP

Execution Begins

The ULBs get the DPRs for identified projects approved by the SHPSC which are technically appraised by the SLTC

Implementation begins after the detailed technical & financial appraisal of the DPRs

1.9 Fund Allocation

The total Fund allocation for AMRUT is Rs. 50,000 Cr for five years from FY 2015-16 to FY 2019-20. The Mission funds will consist of the following four parts:

1 Project fund : 80% of the annual budgetary allocation

2 Incentive for Reforms: 10% of the annual budgetary

allocations

3 State funds for : 8% of the annual budgetary allocation

Administrative & Office

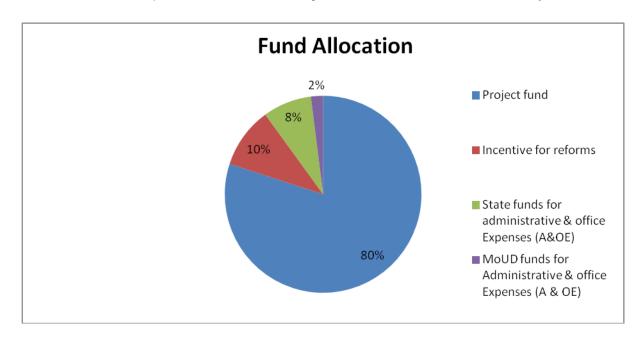

Expenses (A&OE)

4 MoUD funds for : 2% of the annual budgetary allocation.

Administrative & Office

Expenses (A&OE)

For financial year 2016-17 project fund is 90% of the annual budgetary allocation. (Central share of Punjab for 2016-17 = Rs 400.80 Cr)

1.10 Project funding pattern

Funding pattern of the projects indicating the share of Central Government/State Government/ULBs/Private sector is given below

| S.No. | | Components | Funding Pattern |
|-------|---------------------------|--|---|
| 1. | Water Supply | New, augmentation and rehabilitation of water supply system. Rejuvenation of water bodies for water supply and recharge of ground water. Special arrangements for difficult areas, hills and coastal | One-third of the project cost as grant from Gol for cities with a population of above 10 lakh. One-half of the project cost as grant for cities/towns with population up to 10 lakh. |
| 2. | Sewerage | New, augmentation and rehabilitation of sewerage systems and treatment plants. Recycling water for beneficial purposes and Reuse of waste water. | Balance funding by State Governments/ULBs or through private investment. |
| 3. | Septage: | Faecal sludge management- (cleaning, transporting and treatment), particularly mechanical & biological cleaning of septic tanks and sewers. | |
| 4. | Storm water drains: | Construction & improvement of drains and storm water drains. | |
| 5. | Urban transport: | Sidewalks, foot over bridges, non-motorized transport, buses, BRTS, multi level parking, waterways and ferry | |

| S.No. | | Components | Funding Pattern |
|-------|--------------|---|---|
| | | vessels. | |
| 6. | Green | Development of green spaces | One-half of the project cost |
| | spaces | and parks with special provision for child-friendly components. | by Gol and the total expenditure on these projects will not exceed 2.5% of the State Annual Action Plan (SAAP). |
| 7. | Capacity Bui | llding and Reforms Support | • Full (100%) by Gol, |
| 8. | A & OE (PM | U/PIU/DPR cost, etc) | |

1.11 Release of fund

GOI share will be released in three instalments of 20:40:40 for the approved SAAP every year.

The First instalment will be released immediately after approval of the SAAP by the Apex Committee. The Second and Third instalment will be released on the receipt of (i) Project Funds Request, (ii) Utilization Certificates and (iii) Score Card.

CHAPTER-2

Urban Profile- PUNJAB

2.0 PUNJAB- Urban Profile

Punjab is one of the 29 states of India, situated in North-West India. The State borders Pakistan on the West, Jammu & Kashmir to the North, Himachal to the North-East, Haryana to the South & South-East and Rajasthan to the South-West. Total area of state is 50,362 sq km. and it is 19th largest state of India in terms of area.

2.1 Urbanization in Punjab

The State has witnessed a rapid urbanization. Punjab is 5th Urbanized State in India, next to Tamil Nadu, Maharashtra, Gujarat and Karnataka. As per census 2011, urban population is 37.48 % of state population, which is much higher than the national average of 31.16 %. The urban population share has increased from 21.72 % in 1951 to 37.48 % in 2011. The decadal growth of urban population during the period 2001-2011 is 26.11% against national average of 27.60 %, where as total population growth of the State during the decade was 14.22 % against national average of 17.64 %.

Urbanization in Punjab from 1951 to 2011

| Year | Total | Urban | Percentage of | Decadal growth | Total |
|------|------------|------------|---------------|----------------|------------|
| | Population | Population | urban | of urban | number of |
| | | | population | population (%) | UAs/ towns |
| 1951 | 9,160,500 | 1989267 | 21.72 | 20.02 | 110 |
| 1961 | 11135069 | 2567306 | 23.06 | 29.06 | 106 |
| 1971 | 13551060 | 3216179 | 23.73 | 25.27 | 106 |
| 1981 | 16788915 | 4647757 | 27.68 | 44.51 | 134 |
| 1991 | 20281969 | 5993225 | 29.55 | 28.95 | 120 |
| 2001 | 24289296 | 8245566 | 33.95 | 37.58 | 157 |
| 2011 | 27743338 | 10399146 | 37.48 | 26.12 | 164 |

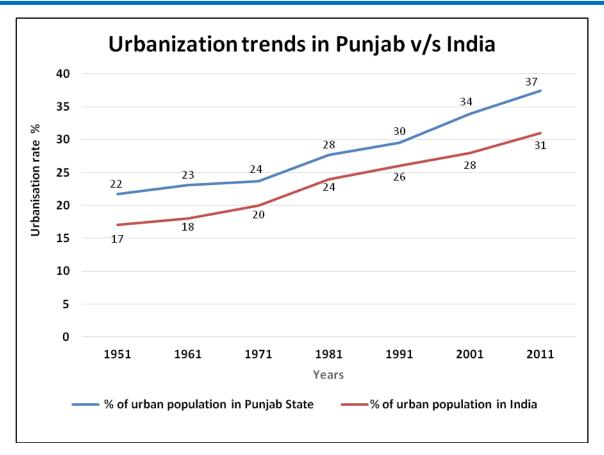

(Source Census of India, 2011)

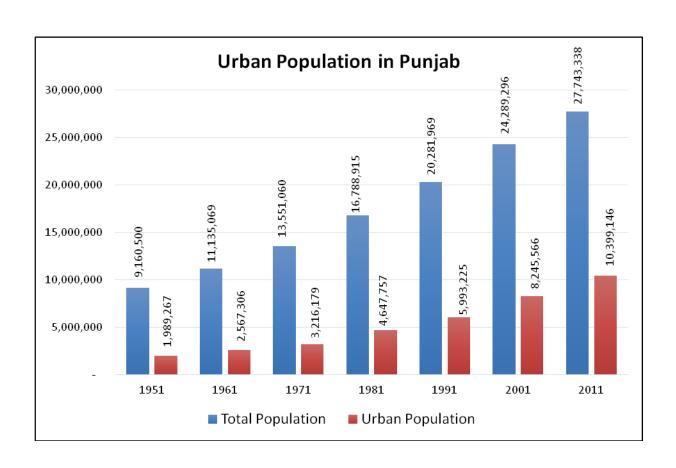

As per census 2011 there are 164 ULBs in the State. Administratively, Punjab has classified ULBs in six classes i.e. I, II, III, IV, V and VI. There are 10 Municipal Corporations and 154 Municipal Councils.

Large cities and towns (class I and II) have been increasing at a faster pace with a larger population base. The class I and II towns are likely to grow faster and become over-crowded with higher population densities.

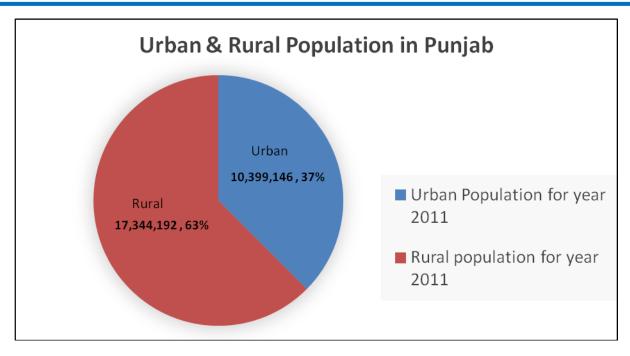

Since 1951, Ludhiana city has witnessed a explosion in population growth. In 1991, Ludhiana became the first million plus metropolitan city of Punjab. Amritsar too has acquired metropolitan status and has become the second metropolitan city of the state. Three out of every ten urban dwellers (29.23%) in the state reside in these two metropolitan cities. Ludhiana city has a high density of 8,755 persons per sq km.

CHAPTER-3

AMRUT in Punjab

3.1 Towns Covered

16 towns with the population more than one lac have been selected for coverage under AMRUT.

Map of 16 Selected Towns

List of selected towns and census 2011 population of each is given in the table below:

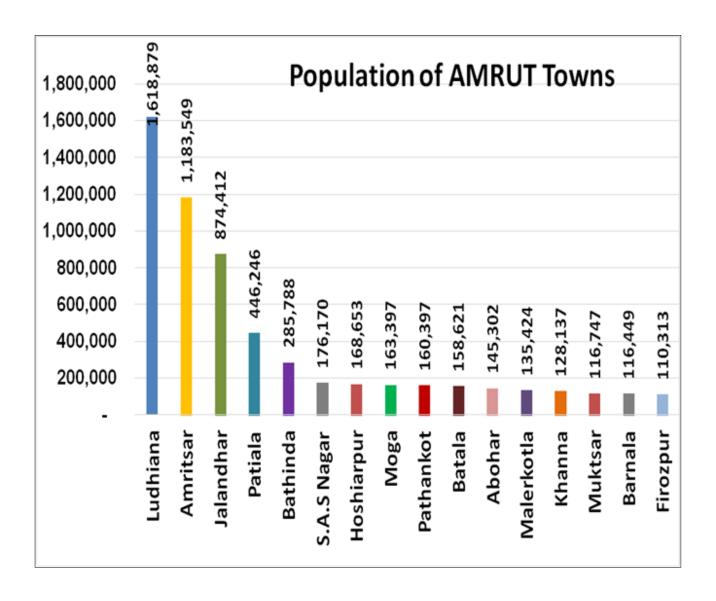

Table 3.1 Population of 16 AMRUT Town

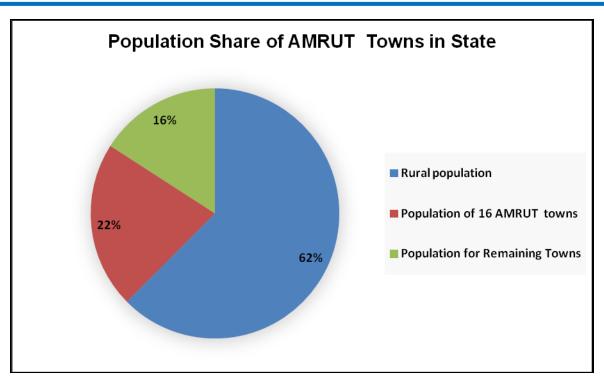

| Sr. No. | Town | Population (Census 2011) | |
|---------|---------------------|--------------------------|--|
| 1. | Abohar | 145,302 | |
| 2. | Amritsar | 1,183,549 | |
| 3. | Barnala | 116,449 | |
| 4. | Batala | 158,621 | |
| 4. | Bathinda | 285,788 | |
| 6. | Firozpur | 110,313 | |
| 7. | Hoshiarpur | 168,653 | |
| 8. | 8. Jalandar 874,412 | | |
| 9. | Khanna | 128,137 | |
| 10 | Ludhiana | 1,618,879 | |
| 11. | Malerkotla | 135,424 | |
| 12. | Moga | 163,397 | |
| 13. | Muktsar | 116,747 | |
| 14. | Patiala | 446,246 | |
| 15. | Pathankot | 160,397 | |
| 16. | S.A.S Nagar | 1,76,170 | |
| | Total Population | 59,88,484 | |

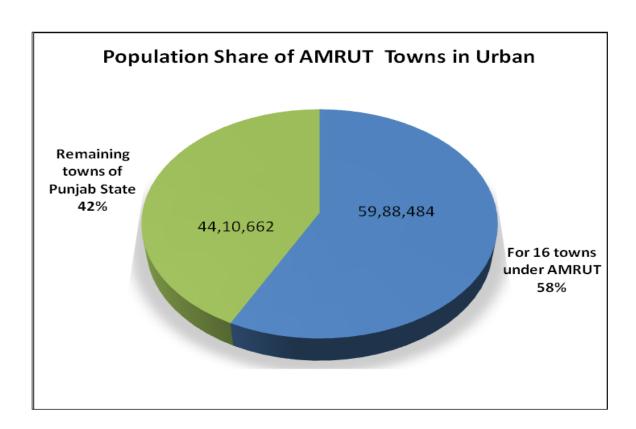

Population of 16 AMRUT Towns is 22% of State Population and 58% of the State Urban Population.

3.2 Present Service levels

3.2.1 Water Supply and Sewerage

To achieve maximum coverage in water supply and sewerage, the state has been implementing various projects with the support of World Bank, JICA, JnNURM, National River Action Plan, and various Central/state schemes. The coverage in 16 AMRUT towns for water supply and sewerage is 62 % and 88 % respectively.

Table below shows the present status of coverage of water supply House Hold connections, Metering of water connections and Coverage with House Hold Sewerage connections in AMRUT towns.

Table 3.2 (a): Present level of Water Supply Indicators

| Sr. | Town | Population | Coverage by | Per capita | Quality of |
|-------|-------------|------------|-----------------|------------|------------|
| No | | for the | household Water | supply | water |
| | | year 2011 | supply | (LPCD) | supplied |
| | | | connections (%) | | |
| 1 | Abohar | 145,302 | 58% | 79 | 100 |
| 2 | Amritsar | 1,183,549 | 65% | 142 | 100 |
| 3 | Barnala | 116,449 | 63% | 120 | 100 |
| 4 | Batala | 158,621 | 33% | 112 | 100 |
| 5 | Bathinda | 285,788 | 48% | 95 | 100 |
| 6 | Firozepur | 110,313 | 63% | 117 | 100 |
| 7 | Hoshiarpur | 168,653 | 77% | 100 | 100 |
| 8 | Jalandhar | 874,412 | 67% | 240 | 100 |
| 9 | Khanna | 128,137 | 28% | 67 | 100 |
| 10 | Ludhiana | 1,618,879 | 60% | 176 | 100 |
| 11 | Malerkotla | 135,424 | 78% | 110 | 100 |
| 12 | Moga | 163,397 | 65% | 173 | 100 |
| 13 | Mukatsar | 116,747 | 44% | 74 | 70 |
| 14 | Patiala | 446,246 | 57% | 124 | 100 |
| 15 | Pathankot | 160,397 | 69% | 95 | 100 |
| 16 | S.A.S Nagar | 176,170 | 93% | 191 | 100 |
| Total | | 5,988,484 | | | |

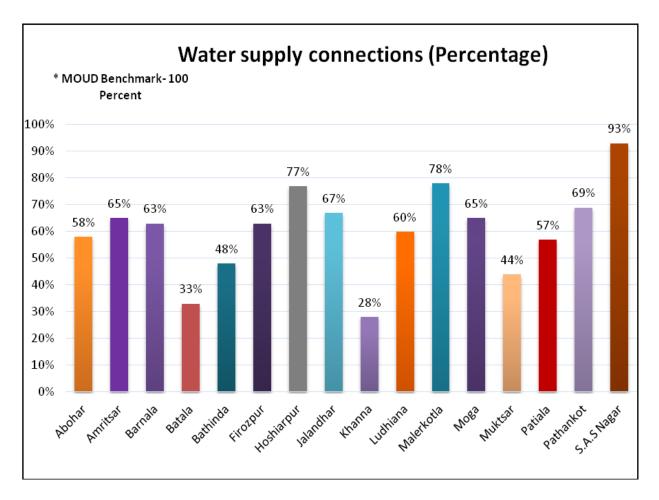

- Only one town (SAS Nagar) has coverage more than 90% of water supply connections and Khanna has the least coverage of 28%. 9 towns have coverage between 60% to 80%.
- The Per Capita Supply rate in 11 towns is less than the benchmark of 135 LPCD.

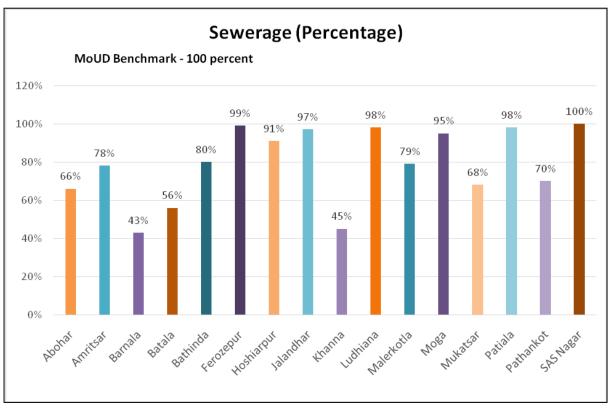

Table 3.2 (b): Present level of Sewerage Indicators

| Service level Indicators- Sewerage | | | | | | |
|------------------------------------|------------------------------------|----------------------|--------------------------------------|---|--|--|
| Name of Town | Coverage by household Sewerage (%) | Coverage of latrines | Efficiency of Collection of Sewerage | Adequacy Of Sewerage Treatment Capacity | | |
| Abohar | 66% | 52% | 47% | 100% | | |
| Amritsar | 78% | 70% | 59% | 0% | | |
| Barnala | 43% | 55% | 38% | 0% | | |
| Batala | 56% | 81% | 39% | 0% | | |
| Bathinda | 80% | 85% | 46% | 100% | | |
| Ferozepur | 99% | 70% | 63% | 0% | | |
| Hoshiarpur | 91% | 83% | 52% | 100% | | |
| Jalandhar | 97% | 77% | 65% | 100% | | |
| Khanna | 45% | 35% | 31% | 0% | | |
| Ludhiana | 98% | 56% | 47% | 100% | | |
| Malerkotla | 79% | 68% | 56% | 0% | | |
| Moga | 95% | 85% | 54% | 100% | | |
| Mukatsar | 68% | 66% | 57% | 90% | | |
| Patiala | 98% | 60% | 49% | 100% | | |
| Pathankot | 70% | 69% | 50% | 100% | | |
| SAS Nagar | 100% | 93% | 93% | 100% | | |

 The Highest coverage by household sewerage is 100% in SAS Nagar. Only 3 towns have coverage less than 60%.

3.2.2 Adequacy in Sewage Treatment

Out of AMRUT towns, 10 towns have set up Sewage Treatment Plants. Most of these plants have enough capacity to treat the expected waste water in year 2021. Out of the remaining 6 towns (Amritsar, Barnala, Batala, Ferozepur, Khaana and Malerkotla), Sewage Treatment Plants are under construction in Amritsar through JICA and JnNURM financed Schemes and in Ferozepur under state financed scheme.

3.2.3 Drainage

The whole city of SAS Nagar is provided with underground storm water drainage system. A part of Ludhiana, Jalandhar, Amritsar and Patiala also have storm water drainage system. In other towns the storm water drainage system is yet to be laid.

3.3 Service level Benchmarks

Govt. of India has fixed the benchmarks for various service level indicators of Water Supply, Sewerage, Drainage etc. These Benchmarks are part of city development planning process. Significant benchmarks indicators are as under:-

3.3.1 Water Supply

Table 3.3 (a) - Indicators for Water Supply

| S. No. | Indicator | Bench mark |
|--------|--|------------|
| 1 | Coverage by water supply connections | 100% |
| 2 | Per capita supply of water | 135 lpcd |
| 3 | Metering of water connections | 100% |
| 4 | Non-revenue water | 20% |
| 5 | Quality of water Supplied | 100% |
| 6 | Cost recovery in Water Supply Services | 100% |
| 7 | Efficiency in collection of Water Supply related charges | 90% |

3.3.2 Sewerage and sanitation

Table 3.3 (b) - Indicators for Sewerage

| S. No. | Indicators | Bench mark |
|--------|--|------------|
| 1 | Coverage of toilets | 100% |
| 2 | Coverage by sewage network services | 100% |
| 3 | Collection efficiency of sewage network | 100% |
| 4 | Adequacy of sewage treatment capacity | 100% |
| 5 | Quality of sewage treatment | 100% |
| 6 | Extent of reuse and recycling of sewage | 20% |
| 8 | Cost recovery in sewage management | 100% |
| 9 | Efficiency in collection of sewage charges | 90% |

3.3.3 Storm water drainage

Table 3.3 (c) – Indicators for Storm Water Drainage

| S. No. | Indicator | Bench mark |
|--------|--|------------|
| 1 | Coverage of storm water drainage network | 100% |
| 2 | Incidence of water logging/flooding | 0 |

3.4 Service level Gap Assessment and Investment

- 3.4.1 AMRUT has set a goal to achieve universal coverage for water supply and sewerage services and achieving other benchmarks following a step by step process after achieving the universal coverage.
- 3.4.2 Based on the population of town, projected population in year 2021, status of service level of water and sewerage services, the gap to achieve universal coverage has been identified for each town. Investment of Rs 2704.86 cr is required to bridge this gap
- 3.4.3 In case of urban transport the benchmark will be to reduce pollution in cities.
 There is huge gap in service level benchmarks for urban transport in state of Punjab. At present Level of Service in urban transport in all cities/towns is as

low as '4' against the required benchmark of Level of Service '1' set by MoUD. To achieve the Benchmark, various services such as Public Transport, Non-Motorised Transport Facilities, Pedestrian Facilities, augmentation of Parking facilities and Intelligent Transport System (ITS), etc. need to be created / upgraded and huge investment to the tune of Rs 20,000 crores approximately is required. In phase I, i.e. AMRUT period 2015- 20 an investment of Rs. 1169.70 cr is proposed in six major cities (Amritsar, Ludhiana, Jalandhar, Patiala, SAS Nagar and Bathinda). This is to be used for purchase of low floor environment friendly buses, construction of footpaths, developing ITS facilities, signages/ street furniture, junction development, traffic management, creating parking facilities and construction of bus shelters etc. For remaining 10 towns, investment of Rs. 50 cr is proposed to provide various facilities.

- 3.4.4 Construction and maintenance of storm water drains is expected to reduce, and ultimately eliminate flooding in cities, thereby making cities resilient. As present Service Level for Storm Drainage in Punjab is very Low and achievement of universal coverage shall require large amount of funds. Keeping in view the priority of universal coverage for water supply/ sewerage, storm drainage system is not proposed in current SAAP. The drainage projects will be considered in subsequent years as per availability of funds and preparation of drainage master plans.
- 3.4.5 In case of Green Spaces and Parks, Development with special provision for child friendly components is the immediate goal under AMRUT. In view of the AMRUT guidelines limiting total expenditure on this service, to 2.5% of the SAAP, investment of Rs. 40.93 cr is proposed. This shall be utilized towards development of child friendly infrastructure, planting more trees/ shrubs, creating facilities for handicapped, installing signage, dustbins, benches & solar based low power LED lights, providing toilet blocks, drinking water, landscaping and fencing etc. It is proposed to cover at least one park every year in each of the towns.

3.5 Prioritization

As per AMRUT guidelines, prioritization is to be done for investment during first to fifth year of the Mission. Universal coverage with water supply and sewerage is the first priority. Accordingly, priorities have been decided in consultation with the ULBs. Priority has been given to Potential Smart Cities i.e. Ludhiana, Amritsar and Jalandhar. Providing Water and Sewerage household connections, metering of existing household water connections has also been considering deciding the priority.

3.6 Principles of Prioritization

- **3.6.1** Universal coverage to Water Supply is given the first priority with a vision that every house hold have tap water connection within his premises. Under this prioritization is done in following steps:
 - (i) 1st priority is given to those projects where infrastructure is available but connections are less. No projects cost is considered under project head, this has been achieved by IEC activities under A&OE expenses.
 - (ii) 2nd priority is given to provide the network in the uncovered areas. The slum area/area inhabited with more urban poor are selected on priority under this head.
 - (iii) Next priority is given to those projects having immediate requirements of tube wells to increase the quantum of water to provide services in the new areas.
 - (iv) All the non coverage like OHSR/ GSR, bulk metering, service meters, SCADA system and rehabilitation of old network will be considered in subsequent years as per the availability of funds.
- **3.6.2** After water supply projects mentioned under (i) to (iv) above, next priority is given to sewerage coverage projects. Under this head first priority is given to provide house hold/ property connections in phase manner.
 - (i) After this Septage management including treatment in the area where there is no/ less sewage/ Septage treatment available this is given the next preference. In this category only those projects are considered having the required land available.

- (ii) In next priority sewerage network projects are considered in a phased manner.
- (iii) All the rest projects under non coverage/ having issues in land/ DPRs not ready will be considered in subsequent years as per the availability of funds.
- 3.6.3 In all AMRUT cities one park is taken up as per AMRUT guidelines. The funds are restricted to 2.5% of total central allocation. Under this category due weightage is given to citizen consultation and quick wins.
- 3.6.4 Only three projects under urban transport is considered for procurement of buses is considered. The project is chosen in the current SAAP considering huge investment done on BRTS under JnNURM and convergence with the smart city mission. All urban transport projects will be considered in subsequent years as per the availability of funds.
- 3.6.5 All the drainage projects will be considered in subsequent years as per the availability of funds. However, preparation of drainage master plans will be taken up in first year under A&OE expenses.

Chapter 4

Investment Plan AMRUT Punjab

4.1 Projects Proposed under AMRUT

For universal coverage of water supply & sewerage system, urban Transportation, Storm water Drains and Development of Green Spaces/Parks as per service level gap assessment and Prioritization, detailed in Chapter 3, total investment of Rs 3915.49 Cr is required in AMRUT towns during the mission period 2015-2020. Sector wise, town wise breakup of total investment is shown in table 4.1 and 4.2. 69% of

project fund is allocated to water supply and sewerage system

Table 4.1 Sector wise investment 2015-20

| S.No. | Sector | Investment (Rs in Cr) | Investment | |
|-------|---------------------------------|------------------------|------------|--|
| | | | Percentage | |
| 1 | Water supply | 911.45 | 23% | |
| 2 | Sewerage and septage management | 1793.41 | 46% | |

4.2 Funding Pattern

The central assistance will be according to the funding pattern stipulated in the AMRUT guidelines. The govt of India will provide1/3 of the projects to the million plus cities and ½ to the cities with population less than a million. In case of green spaces/parks central assistance will be1/2 of the project cost for all cities. 20% of the project cost shall be shared by the ULBs and remaining contributed by state government. The project cost to be shared by GoI, State Government and ULB is shown in Table 4.3 to 4.5

Table 4.3 Sharing of Project Fund- Agency wise

4.3 State Annual Action Plan (SAAP 2016-17)

Keeping in view the prioritization decided, available central assistance and state implementations mechanism, the project investment for the financial 2016- 17 and subsequent year up to 2019- 20 has been worked out and is presented in following tables:-

| • | Abstract of State Annual Action Plan (SAAP) |
|-------------|---|
| Consolidate | ed Requirement of state and Share of Each Stakeholder |
| Table no. | Contents |
| 4.6 | Breakup of Total MoUD Allocation in AMRUT |
| 4.7 | Sector Wise Proposed Total Project Fund and Sharing Pattern |
| 4.8 | Break-up of Total Project Fund Sharing Pattern |
| 4.9 | Use of Funds on Projects: On-going and New |
| 4.10 | Plan for Achieving Service Level Benchmarks |
| 4.11 | Master Plan of all projects to achieve universal coverage during the Mission period based |
| 4.12 | Sector wise Breakup of Consolidated Investments for each ULB in the state |
| 4.13 | ULB Wise Source of Funds for All Sectors |

Table 4.6: Breakup of Total MoUD Allocation in AMRUT

Name of State: PUNJAB FY: 2016-17

Amount Rs. In Crore

| Total Central funds allocated to State | Allocation of Central funds for A&OE | Allocation of funds for AMRUT (Central share) | project proposal = three- times the annual Central allocation | State/ULB share | Total AMRUT annual size |
|--|--|--|---|--------------------|----------------------------|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 144.288 | 10.688 | 133.60 | 400.80 | 456.22 | 867.71 |

Total Project Expenditure during the year 2016-17 (4+5) = 857.02 A & OE = 10.69 Total = 867.71

• State/ULB share for Million Plus town is 2/3 of the project cost. In case of Ludhiana and Amritsar state/ULB share is more than Central Assistance. Thus total State/ULB share is more than Central Assistance

Chapter 5

Administrative and Office Expenses

5.1 Administrative and Office Expenses

Annual budgetary allocation of 8% under AMRUT will be granted to state for administrative and office expenses. The funds shall be utilized for

- capacity building programs
- Hiring of professionals and support teams for Implementation of mission
- > Taking of activities connected to E- Municipality as a service
- Institutional Arrangement for Supporting mission
- Independent review and monitoring agency

For State action Plan of Rs 3915.29 Cr, admissible A & OE fund from Centre is 313.22 Cr

5.2 Details of Institutional Capacity Building

a. Is the State willing to revise their town planning laws and rules to include land pooling?

Yes, the State has already revised the Town Planning Laws and Rules to include the land pooling.

b. List of ULBs willing to have a credit rating done as the first step to issue bonds?

All the ULBs are willing to have a credit rating as a 1st step to issue bonds.

c. Is the State willing to integrate all work done in GIS in order to make GIS useful for Decision-making in ULBs?

Yes, State is willing to integrate all work done in GIS in order to make GIS useful for

Decision-making in ULBs

d. Is the State willing to take assistance for using land as fiscal tool in ULB?

Yes, State willing to take assistance for using land as fiscal tool in ULB.

e. Does the State require assistance to professionalize the municipal cadre?

Yes, assistance is required to professionalize the municipal cadre.

f. Does the State require assistance to reduce non-revenue water in ULBs? DPR amounting to Rs.7.25 Cr. of Water Supply and Sewerage approved by the SLTC.

Yes, assistance is required to reduce non-revenue water in ULBs

g. Does the State require assistance to improve property tax assessment and collections in ULBs?

Yes, assistance is required to improve property tax assessment and collections in ULBs.

h. Does the State require assistance to establish a financial intermediary?

Yes, assistance is required to establish a financial intermediary

i. Any other capacity assistance to implement the AMRUT Reform Agenda as set out in these Guidelines?

For rolling out the individual capacity building for ULB functionaries, the letter has been issued to the all the 23 GOI empanelled training institute with a request to provide necessary information of faculty, facility and infrastructure available for respective interested component of training with your prestigious institute. The signing of agreement is in process. The assistance also required to implement the E-Governance reforms as set out in these guidelines.

Chapter 6

Reforms Implementation Road Map

6.1 Reforms type, Steps and targets for AMRUT city for year Dec 15 to Dec 16

| S. No | Туре | Milestones | Implementa tion Timeline | Target set | by State in | SAAP | Status |

Annexure -I STATE ANNUAL ACTION PLAN (SAAP) - METHODOLOGY

STATE ANNUAL ACTION PLAN (SAAP) UNDER AMRUT- Methodology

Project funds under AMRUT to ULBs will be provided through the States on the basis of proposals covered in State Annual Action Plan (SAAP). SAAP is a State level service improvement plan indicating the year-wise improvement in water-supply and sewerage connections to households. The basic building blocks for the SAAP are the SLIPs prepared by the ULBs. At the state level, the SLIPs of all Mission cities are aggregated into the SAAP. While preparing SAAP, the following responses to various issues involved are indicated against each issue:

Has the state Government diagnosed service level gaps?

Yes. SLIPs have been prepared by all the ULBs for respective towns covered under AMRUT after due consultation with various stakeholders. State Government has diagnosed sector-wise service level gaps for the state as per the information provided by respective ULBs in Service Level Improvement Plan (SLIP). The service levels were prioritized in terms of universal coverage of household connections and other key indicators in respect of water supply and sewerage.

Has the state planned for and financed capital expenditure?

Yes. State Government had planned for capital expenditure for water supply, sewerage projects to be met from various projects financed by State, HUDCO, and JICA etc. so as to cover the urban population of all ULBs. The state Government will provide matching share with GOI share against capital expenditure. ULB share will not be more than 20% and balance share will be contributed by State Government.

Has the State moved towards achievement of universal coverage in water supply and sewerage/ septage?

Yes. The State is moving towards achievement of universal coverage in water supply and sewerage in line with the National Priority. All the schemes covered under JnNURM, HUDCO, JICA and other programmers of Govt. of India and state Govt. are aimed at achieving universal coverage of water supply and sanitation, in a phased manner in all ULBs. The service levels gaps in AMRUT are assessed considering the outputs and outcomes of the existing and on-going projects in water

supply and sewerage and accordingly, the journey towards achievement of universal coverage is being made.

What is the expected level of the financial support from the Central Government and how well have State/ULB and other sources of finance been identified and accessed?

The AMRUT Mission Guidelines envisage Central Assistance of 50% of the total project cost for ULBs with population between1 lakh and 10 lakh, and 33 1/3% for ULBs with population above 10 lakh. Share of ULBs will be 20% and State Govt. will shoulder the balance project cost including 14th Finance Commission Grants.

How fairly and equitably have the needs of the ULBs been given due consideration?

The SLIPS have been formulated by the ULBs after close consultation with the relevant stakeholders including public representatives and proposals have been adequately incorporated keeping in view the needs of the citizens particularly ensuring universal coverage of water supply and sewerage connections to all households. ULBs and project have been prioritized and fixed to ensure fairly and equitable need of all ULBs.

Have adequate consultations with all stakeholders been done, including, citizens, local MPs and other public representatives?

Yes. Adequate consultations with the Elected Representatives, Commissioners/Executive Officers, Municipal Engineers, Water Supply and Sewerage Board/Public Health Engineers etc. have been done to assess the coverage, source augmentation, affordability, technology options etc. making the entire exercise a highly consultative and fruitful one. State officials have clarified issues of overburdening of existing staff due to additional responsibilities, release of funds, permissions etc. duly offering options to restrict the ULBs share to 20% and meeting the balance share in AMRUT project by state Govt.

Important Steps to be followed for preparations of SAAP are mentioned below:

Principles of Prioritization

The ULBs have identified the projects based on service level gap analysis and following consultative process prioritized those projects so as to achieve universal coverage of water supply connections followed by sewerage connections. The next priority was accorded to the other service levels in these sectors appropriate to the specific town.

State has prioritized and selected ULBs with higher gaps in coverage of water supply for funding in the first year. Potential smart cities have also been given the first priority in fund allocation to achieve convergence. The State Govt. has decided to restrict the share of ULBs to 20% of Project cost and share the balance cost from its own resources and the 14th Finance Commission Grants. The prioritization of ULBS for funding has been done after detailed consultations.

Has consultation with local MPs/ MLAs, Mayors and Commissions of the Concerned ULBs been carried out prior to allocation of funding?

Yes. Consultations with all the stakeholders, Chairpersons, Councilors and other public representatives, Commissioners/Executive Officers and the parastatal agencies etc. have been made. The allocations to various sectors and projects in the SAAP have been made based on the consultations with the above key stakeholders.

SCADA system, Metering of individual house connection and installation of meters as well have been given preference to reduce the NRW.

Have financially weaker ULBs given priority for financing?

Yes, the ULBs have been prioritized based on their financial strength, and the ULBs in weak financial condition vis-à-vis others have been given priority for financing in the SAAP.

Is the ULB with a high proportion of urban poor has received higher share?

Yes. Due care has been taken to provide more allocation to ULBs with comparatively higher proportion of urban poor.

Has the potential Smart cities been given preference?

Yes. The three cities, namely Jalandhar, Ludhiana and Amritsar have been given preference in funding to achieve the universal coverage in water supply and sewerage connections in the first year in view of their smart city status.

How many times projects are proposed in SAAP of the Central Assistance (CA) allocated to the State during 2016-17?

As per the AMRUT guidelines, the state has proposed projects three times the size of the Central Assistance allocated in the financial year 2016-17 in the SAAP.

Has the allocation to different ULBs within State consistent with the urban profile of the state?

Yes. The State has made allocations to different ULBs within the State consistent with the urban profile of the State.

Importance of O & M

In view of the importance of effective Operation & Maintenance (O&M) of the infrastructure created under AMRUT for ensuring sustainability of the infrastructure created, it is proposed to extend O&M arrangements for 5 more years after the completion of the 2 years Defects Liability Period (DLP). This will ensure supply of good quality infrastructure by the agency and ensure its upkeep during the DLP and O&M period of 5 year, saving huge money to the Govt. /ULB, increase in life of the asset, reduced wear and tear, reduced energy consumption etc.

The following are the responses to the various issues involved in addressing effective O&M:

Has Projects being proposed in the SAAP includes O&M for at least five years?

Yes. O&M arrangements for all the projects proposed in the SAAP have been proposed for 5 years period after the Defects Liability Period (DLP) and shall be an integral part of the original contract resulting in reduced maintenance and repairs expenses.

How O&M expenditures are proposed to be funded by ULBs/parastatal?

O & M expenditure of assets created will be met by ULBs through recovery of user charges, increasing the revenue by reducing NRW, increasing the coverage of household's connections, strengthening the billing & collection system, rationalizing the user charges etc. and partly by state Govt. financial support. Reduction in expenditure by energy conservation will be achieved.

Is it by way of levy of user charges or other revenue streams?

O&M will be met from, levy of user charges, expanding the connection/ service network, strengthening billing and collection systems and cross verification with other data bases like Property Tax assessment etc., and through expenditure reduction by way of redeployment of man power, energy conservation and efficiency improvement, reduction of NRW (Non- Revenue Water), reuse and recycling of waste water, Metering, SCADA etc. Gap if any in meeting the O&M cost, the same will be met by the ULBs through other revenue sources.

Has O&M cost been excluded from project cost for the purpose of funding?

Yes. For the purpose of funding, the project cost is excluding the O&M cost.

What kind of model been proposed by States/ULBs to fund the O&M?

O&M shall be done by ULBs. Revenue will be increased by focusing on reduction of losses and leakages, reuse of waste water and ensuring proper accounting of

revenue and expenditure etc. PPP opportunities shall be explored for recovery of user charges in case of water supply and sewerage.

In case of child / elderly friendly parks and green spaces, RWAs (Resident Welfare Association) or NGOs are proposed to be involved in their maintenance and upkeep, putting their own resources, if necessary supplemented by ULB's revenues. Financial and / or institution support from Corporate (Corporate Social Responsibility funds)/ NGOs will also be elicited to ensure sustainable O&M of these amenities.

Is it through an appropriate cost recovery mechanism in order to make them self- reliant and cost-effective?

Appropriate cost recovery mechanism shall be formulated during preparation of DPR and will be an integral part of all the projects proposed under the mission.

Financing of Projects

Financing is an important element of the SAAP. Each state has been given the maximum share which will be given by the Central Government. The States/ULBs have to plan for the remaining source generation to meet the project cost under SAAP. The Following responses to various issues are presented:

How the residual financing (over and above Central Government share) is shared between the States, ULBs?

Yes. The AMRUT Mission Guidelines envisage a Central Assistance of 50% of the total project cost for ULBs with population between1 lakh and 10 lakh, and 33 1/3% for ULBs with population above 10 lakh. The remaining financing over and above the Central Assistance is proposed to be shared between the State and the ULBs. Share of ULBs will be 20% and State Govt. will shoulder the balance project cost including 14th Finance Commission Grants.

Have any other sources been identified by the State/ULB e.g. PPP, market borrowing)?

Yes. The State will explore all possible alternative funding options including PPP mode of procurement of project. Details will be worked out in due course, considering the financial status of the respective ULBs.

What is the State contribution to the SAAP? (It should not be less than 20 percent of the total project cost, Para 7.4 of AMRUT Guidelines)

The State Government has consented to share more than 20% of the project cost in general. But for weaker ULBs requiring funds over and above, additional financial assistance shall be provided by state Government.

Whether complete project cost is linked with revenue sources in SAAP?

Yes. The linking of complete Project costs to various revenue sources has been attempted. Still, if there is any gap, the same is envisaged to be financed by the State Government.

Have projects been dovetailed with other sectoral and financial programme of the Centre and State Government?

Yes. The Projects have been dovetailed with other sectoral and financial programmes of the Central Govt. like the JnNURAM, Swachh bharat Mission, Smart Cites Mission, JICA, HUDCO and 14thFinance Commission Grants etc. MP/MLA LADS funds will also be explored.

Is the state planning to create a Financial Intermediary, in order to pool funds from all sources and release funds to ULBs in time?

Yes. The state has earlier created Punjab Municipal Infrastructure Development Company (PMIDC) for obtaining project sanctions, monitoring and channelizing funds from Govt. of India and external funding agencies to the ULBs. It is also

designated as the State Level Nodal Agency (SLNA) for JnNURM, AMRUT and Smart Cities Mission

Has States/ UTs explored the possibility of using Public Private Partnerships (PPP), as a preferred execution model?

Yes. The State has already explored the possibility of using PPP mode of execution model for park development, providing parking facilities, with a mix of success and failure. O&M contracts would be explored for water supply, sewerage and Transport.

Are PPP options included appropriate Service Level Agreements (SLAs) which may lead to the People Public Partnership (PPPP) model?

The PPP options including appropriate Service Levels Agreements (SLAs) leading to the People Public Private Partnership (PPPP) model shall be worked out while preparing the DPRs.
